Hull Draught	0.60m
Main Propulsion	2 x 500 IBM
	Shaft & Prop
Max. Speed	15 knots
Fuel Capacity	2000 L
Range	Up to 300nm
Passengers	90

The Shuttle Range of Passenger Transport Boats is the perfect solution for all your passenger transport needs. With a range that covers 10 to 250 passengers, these boats are designed for inland waterways, rivers, coastal areas, and extended ocean voyages.

The smaller vessels up to 12m are constructed using High-Density Polyethylene (HDPE) plastic, ensuring durability, stability, and low maintenance costs. The larger vessels of 12m and above are constructed using Marine Grade Aluminium, which offers high strength, low weight, and excellent corrosion resistance.

Our boats come equipped with comfortable seating options for passengers, ensuring maximum comfort during their journey. We offer different classes of accommodation that cater to the varied needs of our clients.

Inboard engines and outboard engine options are available for our boats, ensuring that you have the flexibility to choose the power source that best suits your needs.

Our boats are designed to meet Lloyds SSC class rules, ensuring the highest standards of safety and reliability.
