If you're looking for a reliable and versatile RIB that is perfect for both commercial and leisure use, look no further than the Navigator 10 LC! Built with marine grade aluminium construction, this RIB is designed to be tough and durable, with the ability to withstand even the harshest environments. One of the unique features of the Navigator 10 LC is its landing gate in the bow, which makes it possible for entry and exit in the bow. This feature is particularly useful for commercial applications such as diving operations or for the transportation of passengers. The Navigator 10 LC is a popular choice for coast guards, navies, fire departments, and police services around the world. Its success is due in large part to its KND Naval Design registered hull design, which provides exceptional stability and manoeuvrability in even the roughest waters. One of the unique features of the Navigator 10 LC is its HD SPX Foam Fender design, which provides additional buoyancy and safety. This RIB is fitted with 2 x outboard engines, making it a powerful and reliable choice for a variety of applications. The Navigator 10 LC is used by many coast guards very successfully. It is fitted with a KND suspension seat system, providing ultimate comfort and shock absorption for passengers.
