

NAVAL DESIGN

P188 | NAVIGATOR 720 IBM

Length Overall	7.29m
Beam	2.72m
Hull Draught	0.55m
Main Propulsion	1 x 250hp IBM
Max. Speed	30 knots
Fuel Capacity	220L
Range	Up to 195nm
Classification	Lloyds SSC

Looking for a reliable and versatile RIB that is perfect for both commercial and leisure use? Look no further than the Navigator 720 IBM! Built with GRP construction, this RIB is designed to be tough and durable, with the ability to be redesigned into aluminium for even greater strength. The Navigator 720 IBM is a popular choice for coast guards, navies, fire departments, and police services around the world. Its success is due in large part to its KND Naval Design registered hull design, which provides exceptional stability and maneuverability in even the roughest waters. One of the unique features of the Navigator 720 IBM is its Hypalon Fender design, which provides additional buoyancy and safety. This RIB is fitted with an inboard single engine for 250 Hp, making it a powerful and reliable choice for a variety of applications. The Navigator 720 IBM is also used as a boarding boat very successfully, thanks in part to its KND suspension seat system, which provides ultimate comfort and shock absorption for passengers.
