Range	Up to 295nm
Classification	Lloyds SSC

Are you in search of a RIB that offers both reliability and versatility for commercial and leisure use? Look no further than the Navigator 920! This RIB is designed to be tough and durable with its GRP construction, and can even be redesigned into aluminium for even greater strength. The Navigator 920 is a popular choice for coast guards, navies, fire departments, and police services around the world. Its success is due in large part to its KND Naval Design registered hull design, which provides exceptional stability and maneuverability in even the roughest waters. One of the unique features of the Navigator 920 is its D-Fender design, which creates more internal space for passengers and cargo. The fender is made out of HD SPX Foam, which provides excellent protection against impacts and abrasions. In addition, the Navigator 920 is fitted with KND suspension seat system, providing ultimate comfort and shock absorption for passengers. Whether you're looking for a RIB for work or play, the Navigator 920 is the perfect choice.
