Main Propulsion	2 x 450 Bhp IBM & JETS
Max. Speed	35-40 knots
Fuel Capacity	1160 L
Crew & PAX	2 + 15
Classification	Grey Boat Code

We are happy to announce the "Shadowhawk" line of specialist vessels for special operations, which are intended for use by security, military, special operations, and commercially qualified operators. Our "Shadowhawk" vessels are built to survive the worst circumstances and are lightweight, strong, and made of marine grade aluminum. These ships are equipped with powerful assault weaponry and ballistic protective panels in key locations, providing the utmost safety for crew members during crucial operations. The "Shadowhawk" boats' seating is entirely equipped with shock mitigation technologies that are intended to lessen the effect of choppy seas on the operators. It is possible to outfit small boarding boats with specialist gear and infrared for nighttime operations. Our vessels can be placed into most cargo planes for speedy deployment in off-the-grid regions and are low profile to be stealthy, below radar, and undetectable. With years of expertise in the marine sector, our team has combined cutting-edge technology into our designs. Modern engine technology, cutting-edge navigational systems, and communication tools are all included in the "Shadowhawk" ships, providing optimum performance and dependability. Our objective is to give our clients a variety of special operation craft boats that perform beyond average, surpass expectations, and offer the protection and functionality required for crucial operations. The "Shadowhawk" line of special operation craft boats is the only option if you're seeking for a ship that provides great performance, cutting-edge technology, and the required protection for crucial missions. To find out more about our offerings and how we might suit your particular needs, get in touch with us right now.
