P680 | WASTE WARRIOR 14

Length Overall	14.2m
Beam	4.50m
Hull Draught	0.35m
Main Propulsion	1 x 100 Bhp Prop wheels
Speed	4-5 knots
Fuel Capacity	190L
Crew & PAX	2
Classification	Grey Boat Code

Introducing Waste Warrior 14 - the ultimate solution for cleaning up waterways plagued by hyacinths! This innovative device has been specially designed to effectively harvest hyacinths from water bodies using propeller wheels, making it the most efficient and effective tool for water hyacinth management. The Waste Warrior 14 is incredibly easy to operate and can be used by anyone. It comes equipped with a powerful motor and sturdy propeller wheels that can effortlessly maneuver through water and collect hyacinths with ease. The harvested hyacinths are then stored in a built-in container, which can be emptied quickly and easily. Using the Waste Warrior 14 has several advantages for waterways. First and foremost, it helps to maintain a clean and healthy environment for aquatic life. Hyacinths are known to disrupt the natural balance of waterways, causing problems such as oxygen depletion, reduced light penetration, and decreased water flow. With the Waste Warrior 14, these issues can be addressed in a timely and effective manner, ensuring that waterways remain healthy and productive. Additionally, the Waste Warrior 14 is a cost-effective solution for water hyacinth management.
