P646 | WASTE WARRIOR 16

Length Overall	15.90m
Beam	4.50m
Hull Draught	0.73m
Main Propulsion	2 x 150 Bhp
	Hydro Armor
Productivity	Continues
Fuel Capacity	2500L
Crew & PAX	4
Classification	BV

Introducing the Waste Warrior 16 Pollution Control vessel, the ultimate solution for controlling pollution on the water. With a length overall of 16 meters, this vessel is designed to handle a wide range of pollution control tasks, from waste harvesting to disposal and prevention. One of the standout features of the Waste Warrior 16 is its ability to operate as a multi-function vessel. Equipped with advanced pollution control systems, this vessel is able to respond quickly and effectively to a wide range of pollution incidents, including collecting and disposing of waste materials in the water. In addition to waste harvesting and disposal, the Waste Warrior 16 is also designed with an emphasis on prevention. By promoting awareness of the importance of preventing waste in our waters, this vessel is able to make a positive impact on the environment and local communities. With its compact size and advanced pollution control features, the Waste Warrior 16 is the perfect vessel for navigating tight waterways and confined spaces. Its ability to efficiently collect, store, and dispose of waste materials makes it an ideal choice for a wide range of applications, from marinas and harbors to rivers and estuaries.
